

Web App How to Download Guide

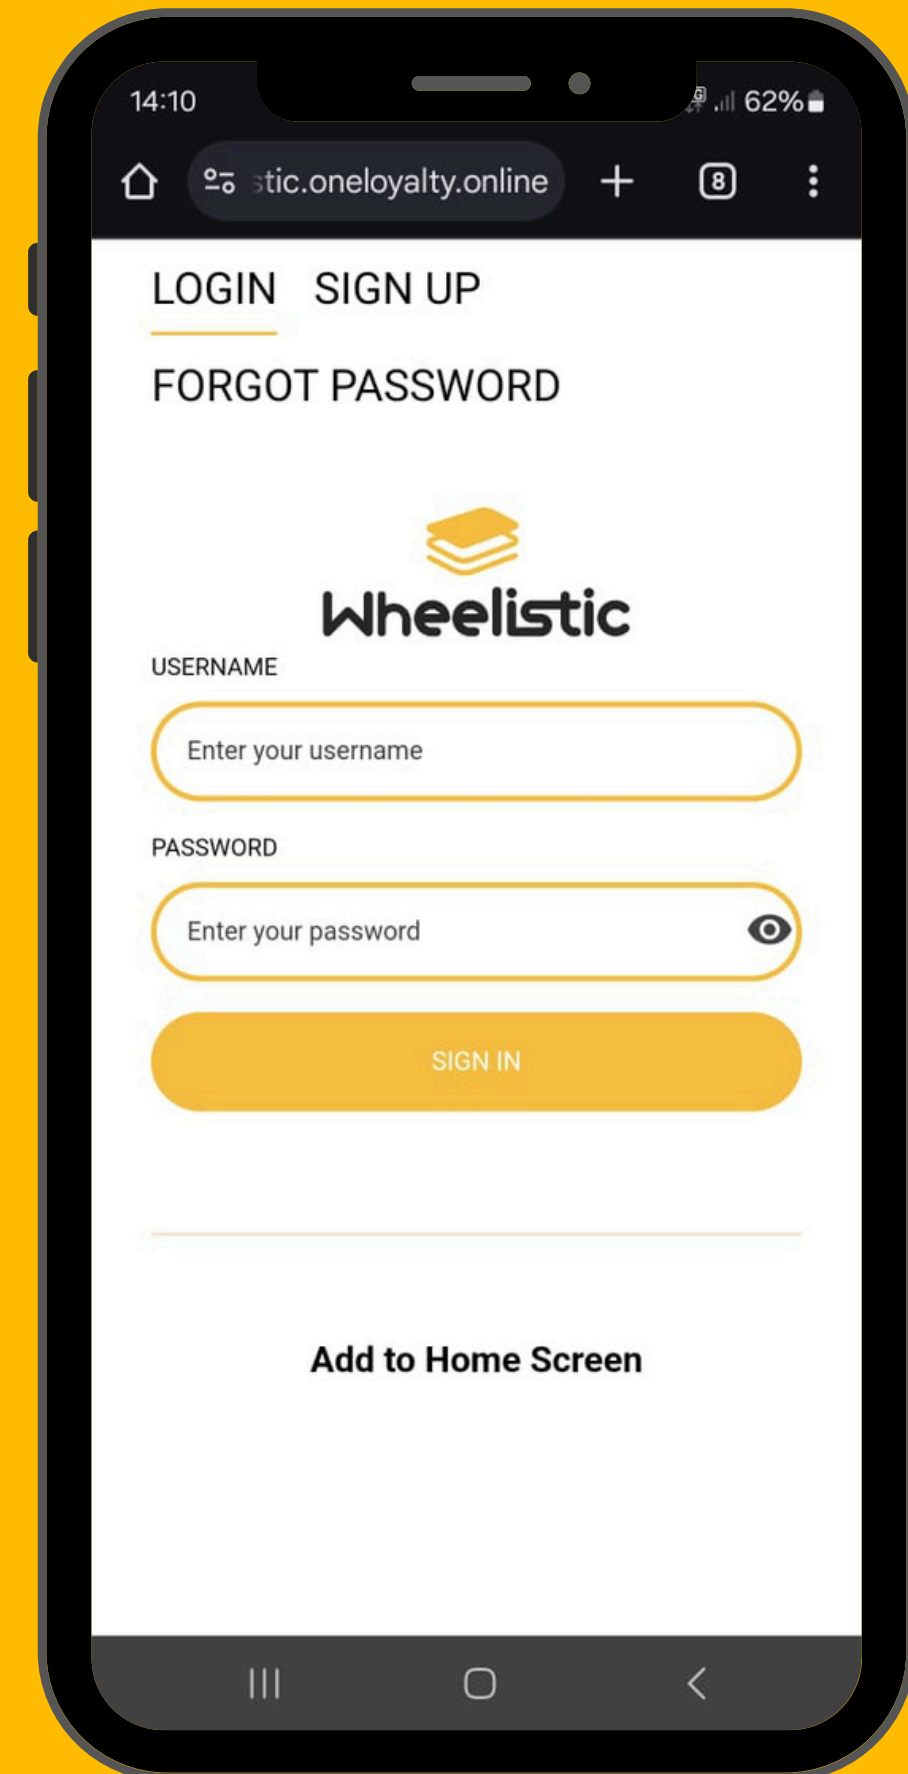

Welcome!

to Wheelistic's Web App

Main App Features

- Medical Assist Access
- Home Drive
- Trip Monitor
- Panic SOS Button to access your emergency services
- Motor Advisor
- Fines & Licence Portal
- Travel Start & Travel Curious Portals

Let's get started

Access the PWA App

Let's get started:

The App is available on any device, including a Cellphone, Laptop or even Tablet.

Scan the QR Code to access the site or click on this link: <http://wheelistic.oneloyalty.online>

Note!

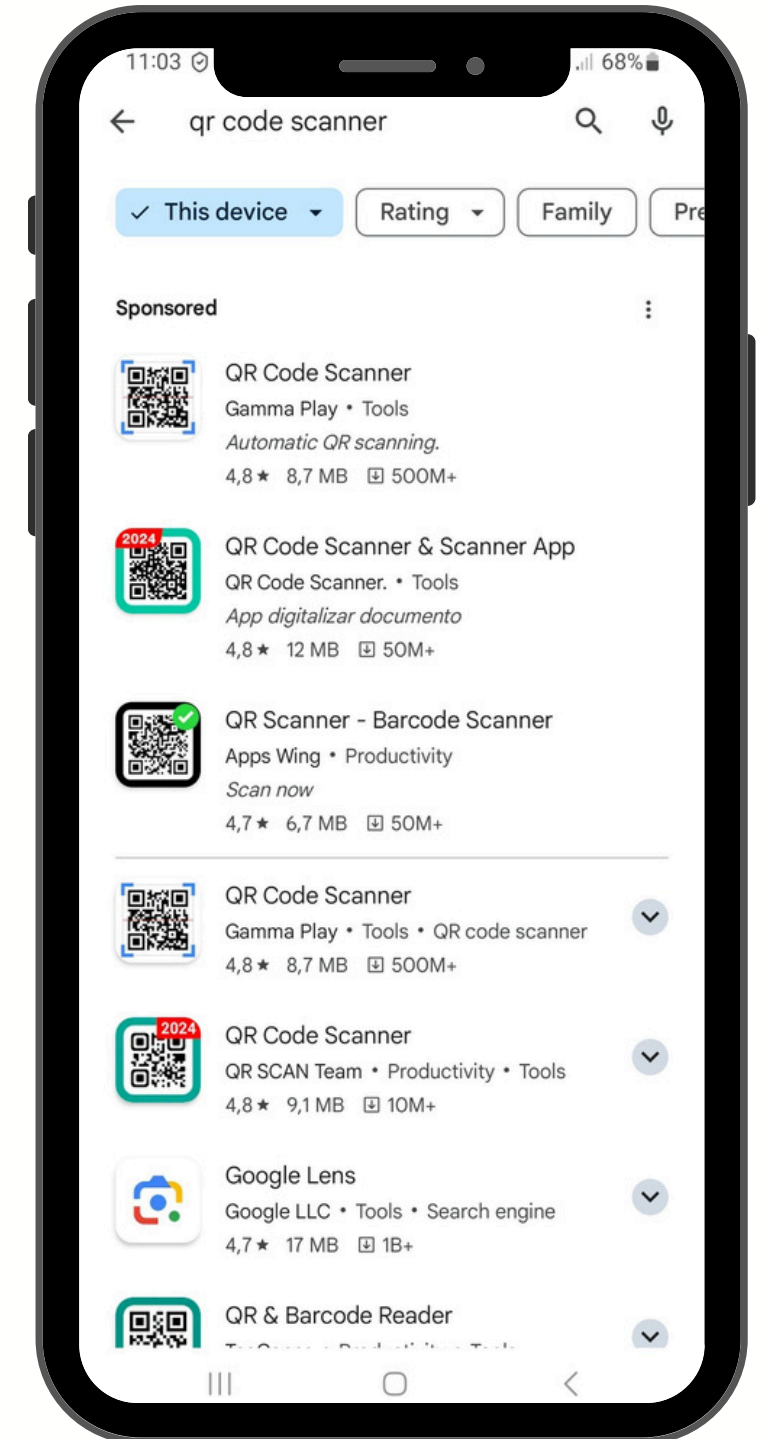

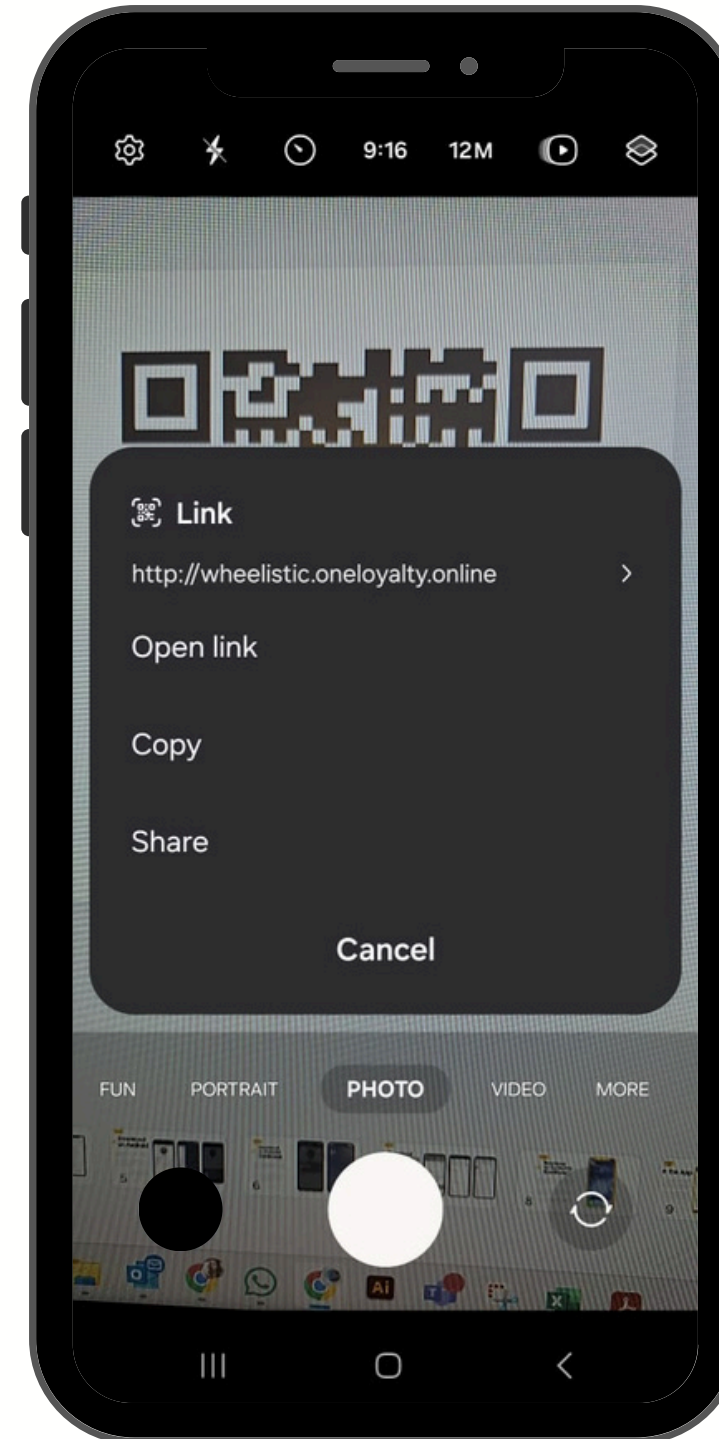

How to Scan

Some devices don't need an App to Scan a QR Code

Some Android and Apple devices can scan QR Codes directly from their Camera as seen on the first screen on the right.

If your Camera does not want to scan the QR Code, please visit your App Store and download a QR Code Scanner to help you scan the QR Code. On the right hand screen is some examples of the scanners available on the Play Store.

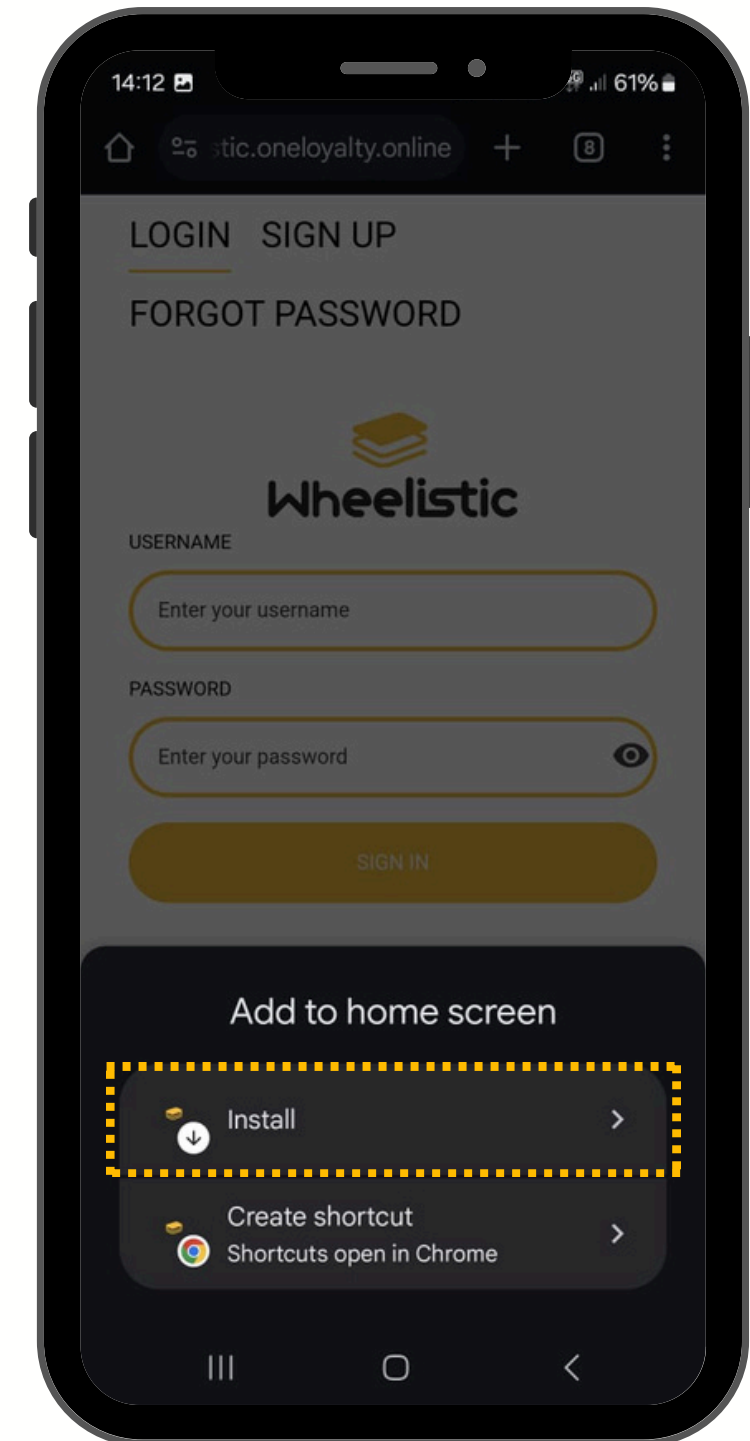

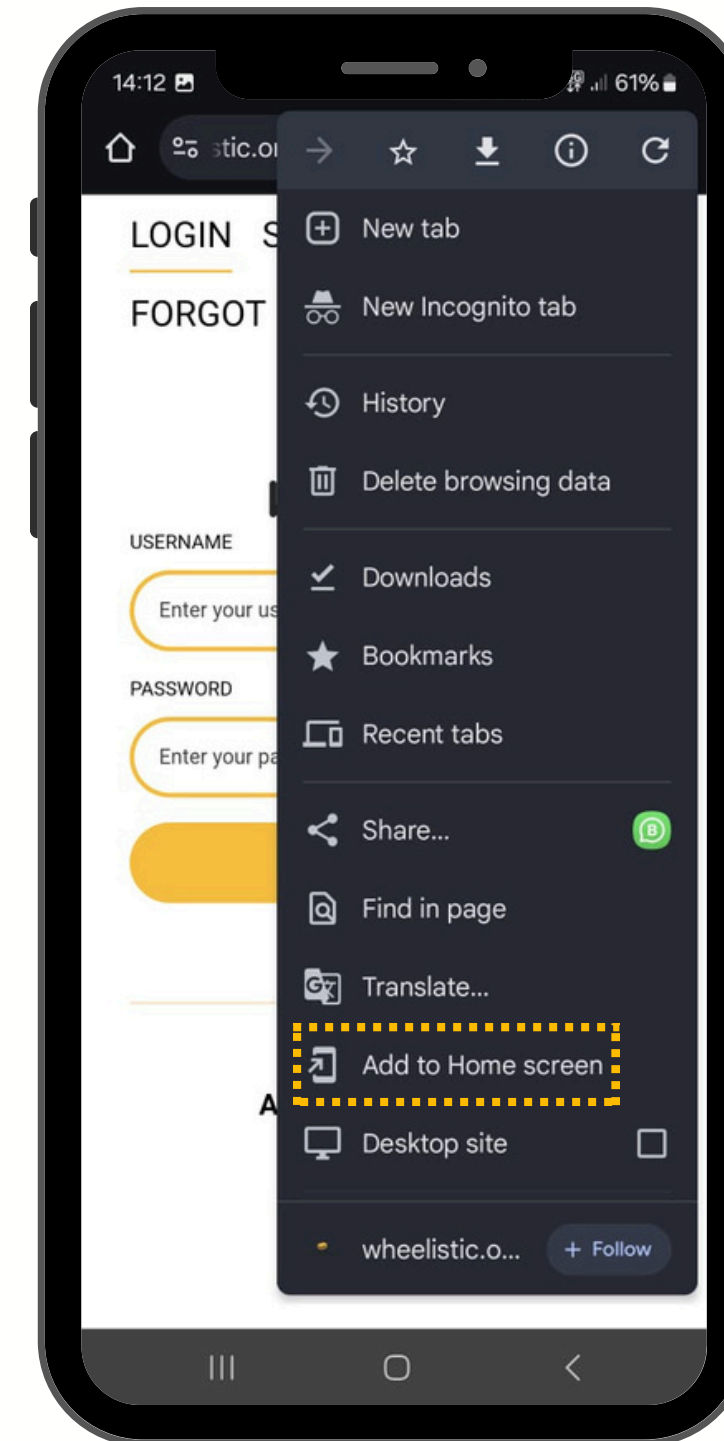

How to?

Download on Android

See screenshots on the right if you are an ANDROID user.

- 1) Add the App to the Home Screen in order to access the App without needing the link or QR Code.
- 2) You can either click on “Add to Home Screen” or open the right hand Menu and then select “Add to Home Screen.
- 3) Here you will click on Install.

How to?

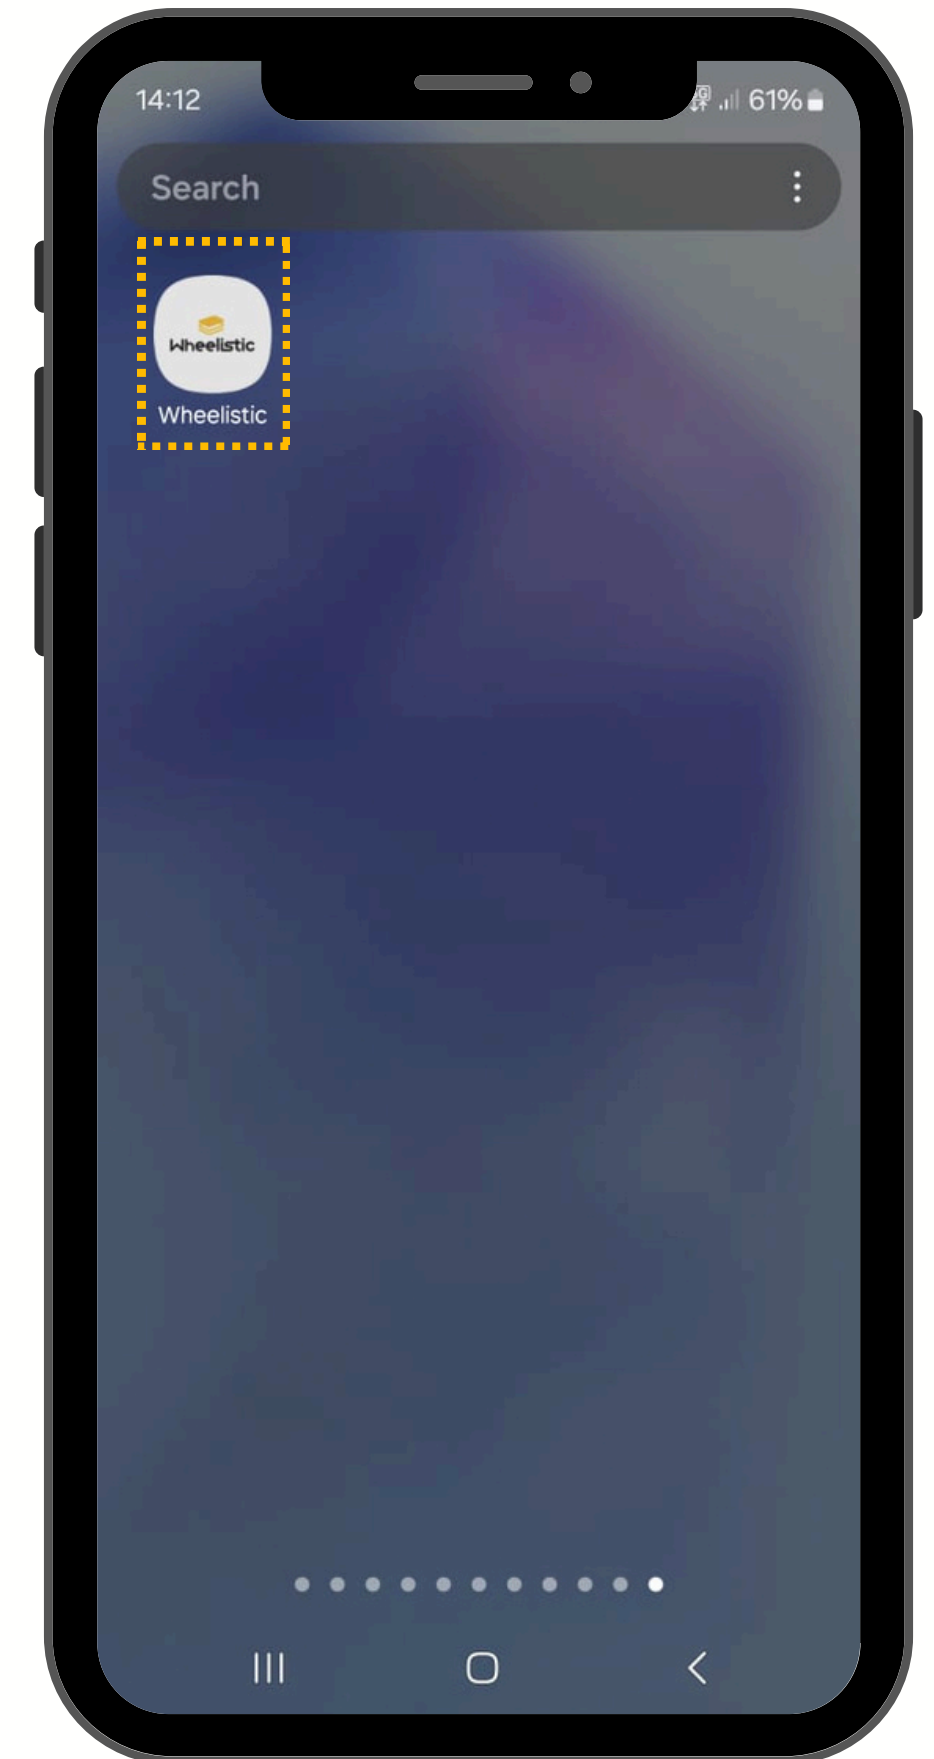

Download on Android (Continued)

Once you have clicked on Install, it will download the PWA in the back end of your Browser.

Press the home screen button on your phone and check that the app is either on your Home Screen or in the App Section of your App Menu.

You have successfully downloaded the app - enjoy all the features!

How to?

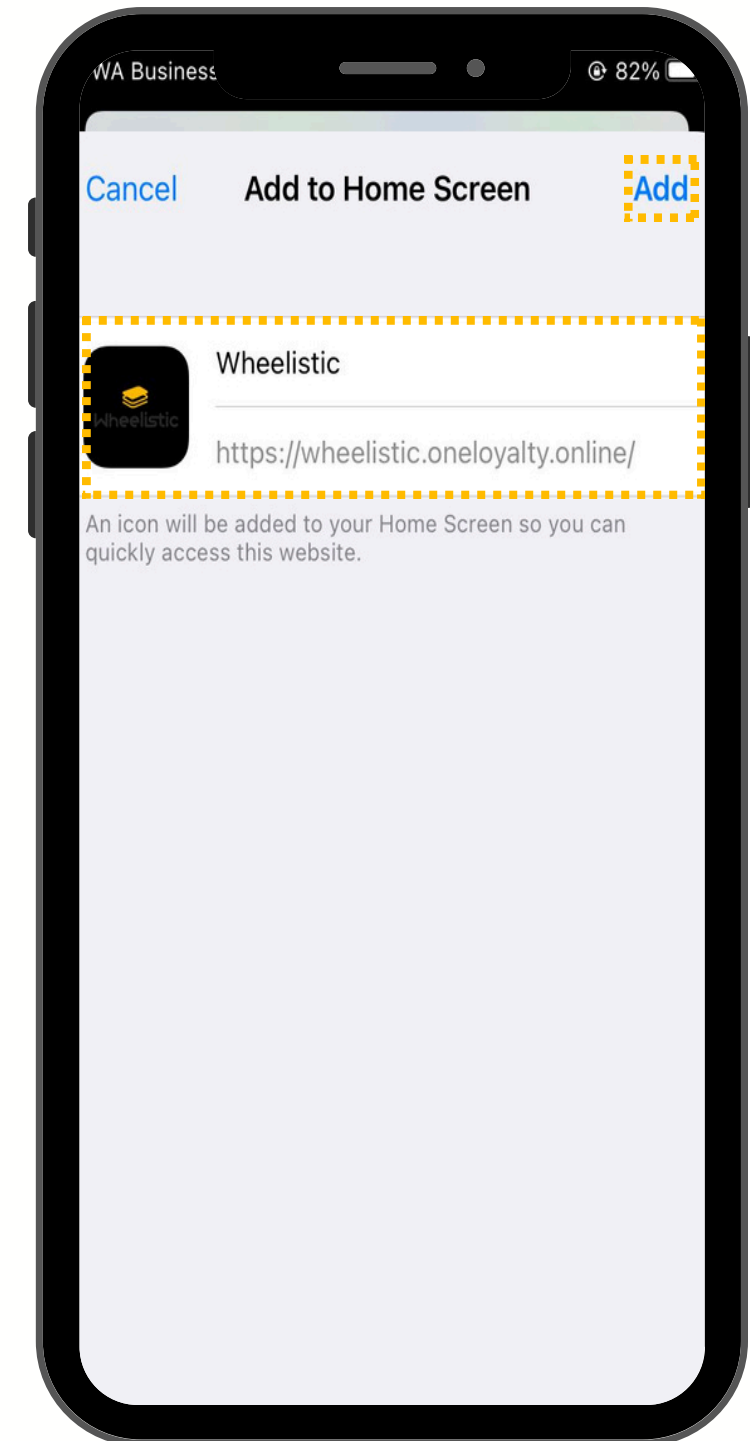

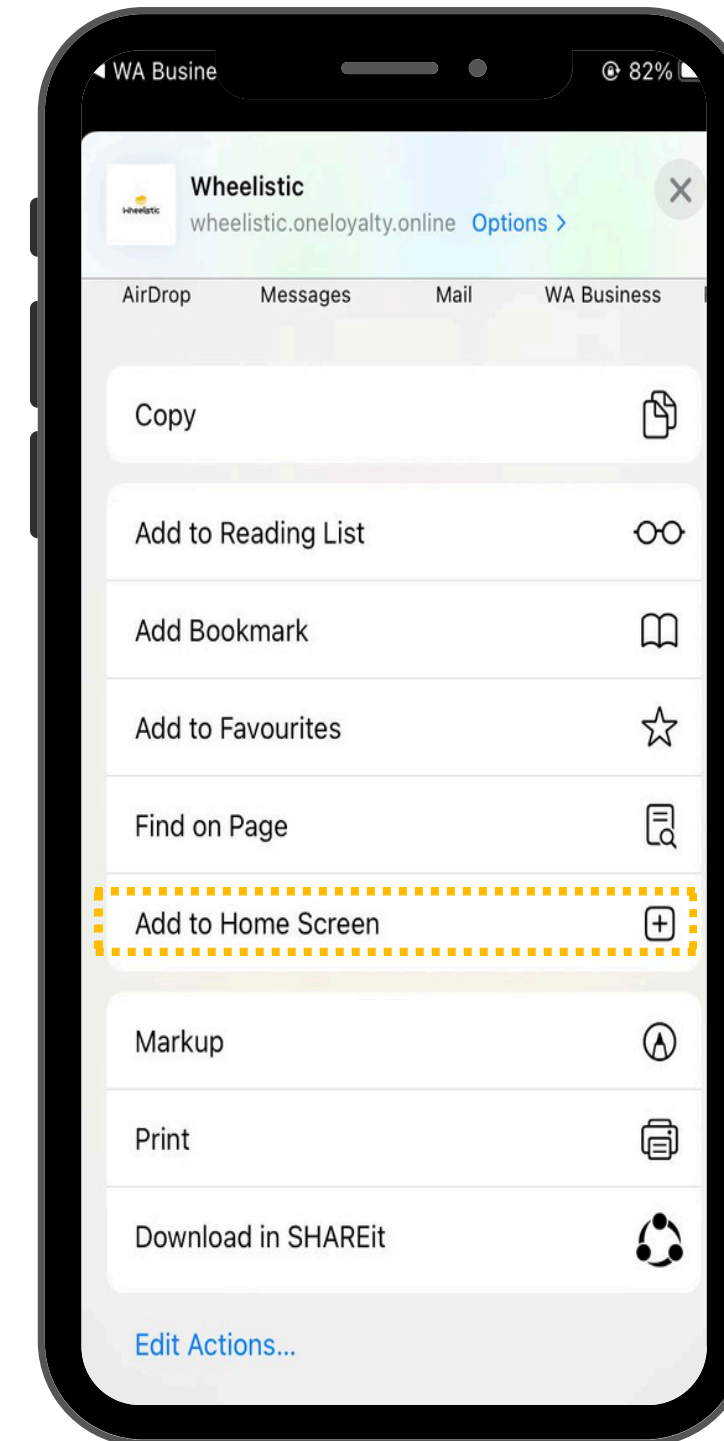

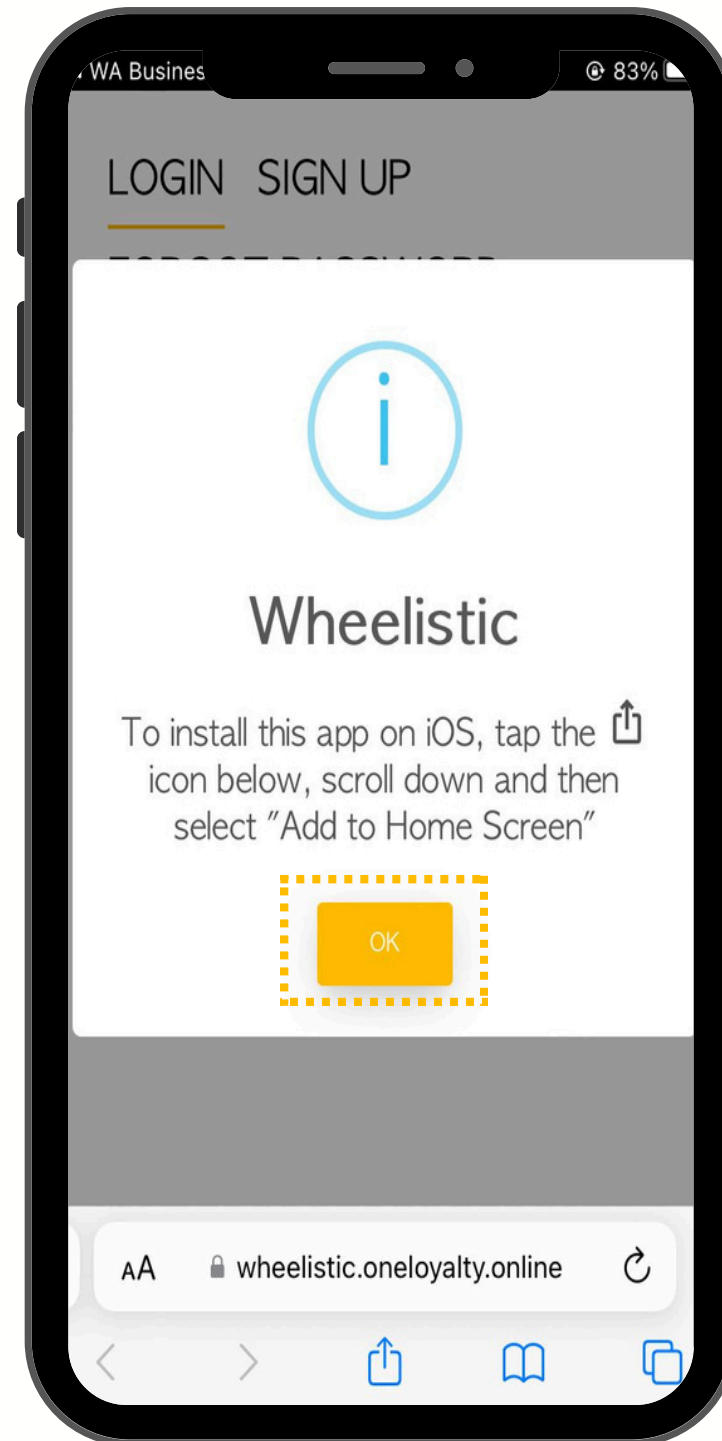

Download on Apple/iOS

See screenshots on the right if you are an APPLE/iOS user.

1) You will receive a pop up message on how to download the app, click OK

2) Add the App to the Home Screen in order to access the App without needing the link or QR Code.

3) Type in the App name, the default is IG but you can add whatever you like the name to be.

How to?

Download on Apple/iOS (Continued)

Once you have clicked on Install, the PWA will download in the back end of your Browser.

On Apple it will automatically show you where the App has been Saved on the Home Screen.

You have successfully downloaded the app - enjoy all the features!

Sign up &
Login

The App

Upon successfully downloading the PWA app, this is the screen you will see first. Please click Sign Up before attempting to login.

Here you can **1)** Sign Up with all your personal details (note that you can use any email address that you like - just make sure you can access it if needed for any OTP's).

2) Login to access the App and **3)** Reset your Password if you have forgotten/lost it.
